

Job Description

Building Services Engineer (Intermediate, Electrical)

Overview:

We are looking for an individual who is fully conversant with the requirements of BS7671 (as amended), and familiar with designing and specifying a range of electrical installations.

You will be working in a team alongside other mechanical and electrical engineers, using software packages, such as Amtech and Relux/Dialux to undertake design calculations and AutoCAD to produce drawings.

MCA has a strong commitment to delivering exceptional customer service and you will be expected to represent the practice at meetings with clients and other professionals. You will therefore need to demonstrate excellent verbal and written communication skills, the ability to prioritise and manage client expectations, and a high level of commercial awareness.

In order to fulfil this role, you have good working knowledge of various types of electrical installations, including commercial and residential, an understanding of relevant British Standards and Building Regulations, and a keen interest in energy, buildings and creating suitable working and living environments.

We offer a relaxed and friendly environment suited to those with a positive outlook and a friendly disposition. We are looking for an individual who is conscientious, able to use initiative, and committed to building and maintaining excellent client relationships. Having your own transport will be important as we cover sites in London and across the south east of England.

We are looking for an individual who is conscientious, keen to learn, able to use initiative, and committed to their own professional development.

Skills:

- AutoCAD 2018 or newer
- Amtech Pro-design
- Relux or Dialux

Experience:

- Relevant Engineering Degree or HNC/HND would be an advantage but not essential
- Previous experience with residential buildings (including landlords services), schools and churches

Qualities:

- Excellent verbal, written and interpersonal skills
- Good attention to detail
- Demonstrable capability to coordinate with others to achieve deadlines
- An aptitude for excellent client support and service delivery
