

Job Description

Building Services Engineer (Mechanical)

Overview:

Working alongside established engineers with the design and production of information relating to the building services installation in a range of project types. The role will include the production of drawings using software packages, contributing to written specifications, and carrying out other tasks, such as small research projects. Current restrictions considered, you will be required to travel to projects primarily throughout the South East and London, as well as several other locations in the UK.

We deliver projects across a wide range of sectors including heritage, healthcare, education, and social housing, as well as bespoke residential developments and Church buildings.

Experience:

The candidate we are looking for should have:

- Relevant HNC/HND or 12 years post-qualification experience
- ECUK registration as Incorporated Engineer (IEng)
- MCIBSE
- Practical experience of the design of all mechanical building services systems, preferably with particular experience of HVAC systems.
- Ability to assist our clients with the development of a brief defining design requirements and follow up with managing client expectations from inception to completion of each project.
- Sufficient experience to quickly develop realistic concept designs in order to assist fellow professionals with shaping the building design at an early stage.
- Excellent verbal and written communication skills.
- Proactive approach to communicating with other engineers within the practice to produce carefully considered and well-coordinated engineering design drawings and written specifications.
- Well-developed proactive interpersonal skills which suit a client facing role.
- Keen sense of professional development and self-motivated improvement.
- Proficient in carrying out design drawings in AutoCAD.
- Thorough understanding and working knowledge of current legislative requirements and design standard standards influencing mechanical services design.
- A bright and enthusiastic outlook and attitude.
